MAKE AN IMPACT

How would you describe your IEMBA experience in one sentence?

“It was so much more than technical courses: it was a great human venture where we have learned HUMILITY, TEAM SPIRIT, PATIENCE, HARD WORK and SUSTAINABILITY!”
Dr Oussama ABBAS, GSK Vaccines, IEMBA 2013

EXPAND YOUR HORIZON

USE YOUR FULL POTENTIAL

“Having a computer sciences degree and a 23 year experience in banking technology, I always felt the business angle was the missing link in my career development. Three key aspects convinced me to register: (1) international immersion in 3 main emerging countries; (2) emphasis on soft skills disciplines which complements the core finance, accounting and macro-economy elements. Hard-skills alone are irrelevant if not complemented by an intimate understanding of people, cultures and behaviors; (3) networking environment, to create lasting relationships. This program enhanced my abilities and built a competitive advantage while maintaining a balance with my personal and work life, increasing my self-confidence and my personal friendships.”
Marie-Christine Diaz, SWIFT, IEMBA 2012
